Five Hundred Town Lots!

In the Railroad Addition to the town of Pomeroy.

This will present a Rare Opportunity for Speculation, as the prospects for the future growth of Pomeroy are better than that of any other town in Washington Territory. The Addition being in a valley one third of a mile wide, the hills rising on each side to the height of over 500 feet is geographically so situated that the city cannot extend in any other direction The lots comprise with but few exceptions all the available ground for RESIDENCES or BUSINESS PURPOSES and in the future extension of Pomeroy, its growth can only be in the direction of the above Railroad Addition, the passenger, freight depots and warehouses being located in the center of these Lots, which are all in the city limits. Pomeroy is the county seat of Garfield County, and already is a thriving town of over 1000 population with fine schools, three weekly newspapers, and is the Terminus of the Starbuck & Pomeroy Railroad, a branch line of the O R & N and there is more fertile agricultural land tributary to it than any other town in Oregon or Washington Territory, and there is but little doubt of its doubling its population within the next two years

Terms of Sale:

Cash for all sales of $25 or under. For all over that amount 10 per cent. discount for cash; or one-third (1-3) cash, balance in 6 and 12 months, with notes, bearing 12 per cent. interest, secured by mortgage.

From Eczema.—Ears and Scalp Covered with Scabs and Sores. Cured by Cuticura.

My [illegible] aged eight years has been afflicted with Eczema of the scalp and at times a great portion of the body ever since he was two years old. It began in his ears and extended to his scalp, which became covered with scabs and sores and from which a sticky fluid poured out causing intense itching and distress, and leaving his hair matted and lifeless. [illegible] the skin was raw like a piece of beefsteak. Gradually the hair came out and was destroyed until but a small patch was left at the back of the head. My friends in Peabody know how my little boy has suffered. At night he would scratch his head until his pillow was covered with blood. [illegible] in many ways tried to prevent his scratching but it was no use he would scratch. I took him to the hospital and to the best physicians in Peabody without success. Total acres earned to June 30 [illegible] 000 and total sales 5,829 123 acres. The report views at length the attempt in congress to forfeit land grants and does not think it will be successful and if so that such forfeiture would be declared illegal and void by the courts

THE HARRIS TICKET ELECTED

NEW YORK, Sept 16.—President Harris formally opened the stockholders meeting of the Northern Pacific railroad in this city at noon to-day. The ticket for directors for 1886 is August Belmont, Frederick Billings, John W Broakman, John C Bullet, Benj P Cheney, James C Fayo, John H Hall, Robert Harris, Brayton Ives, Johnston Livingston, Thomas F Oakes, Lewis Stackpole, Charles B Wright. New names on the list are John Broakman, Brayton Ives and James C. Fayo who take the places of Roswell G Rabton and N P Hallowell. Brayton Ives voted on 25,000 shares and John W Broakman on over 20,000 shares

The election resulted in a complete victory for the Harris ticket. The total number of votes cast was [illegible] out of a capital stock of 870 [illegible] shares. Elijah Smith, president of the Oregon & Transcontinental voted [illegible] shares for the old ticket with the exception of John C Bullit and Charles B Wright, of Philadelphia voted on over 150 000 shares

President Harris then read the annual report a synopsis of which has already been sent in these dispatches

The board of directors met later and elected the following officers: President, Robert Harris; vice president T F Oakes; treasurer, R L Belknap; secretary, Samuel Wilkinson

The new directors, Brayton Ives, James C Fayo and John W Broakman, belong to this city but represent Philadelphia interests as well

ANOTHER BRANCH TO BE BUILT

ST PAUL, Minn, Sept 16.—The fact has just leaked out that the Northern Pacific and its allied lines will build a branch to Marysville, Mont, the great camp of the celebrated Drummond mine, and have it running within forty days. This is part of the Northern Pacific branches designed to develop the great mineral resources of the territory and secure ore shipments. The new line will [illegible] Helena and by easy grades reach the [illegible] at a comparatively small cost

A SULLIVAN IN SKIRTS

A Western Dude Knocked out by a Muscular and Scientific Young Woman

NEW YORK, Sept 16.—A special from Philadelphia to the Times gives a Western man's experience [illegible] yesterday. Following is the story [illegible] are the man that insulted me and this is how I get even

A rather good-looking well dressed and rather muscular young woman accompanied this decision with a blow straight from the shoulder. It knocked a dude up against the Pennsylvania railway ticket office at Broadway and Chestnut streets about 11 o'clock last night. The blow caught him straight between the eyes and smashed his eye-glasses. The young woman had followed up her advantage with a half dozen blows that sent the man sprawling. When he rose to his feet he was met by another knock-down from the young woman's left. The man had a swollen eye, a cheek puffed out and his lip was bleeding copiously. At the end of the female slugger's initiatory tattoo upon his frontispiece he brought him self up with an effort and made two or three passes at his adversary but his blows were warded off with a skill and grace that the American champion might have envied. Not one of his hits reached the face of the woman who had her blood up and who countered every time with telling effect. For fully five minutes this one sided contest was kept up and then the man began to shout [illegible]

A policeman finally appeared and grabbed the man thinking he had been attacked from the rear by a confederate of the fury he continued to shout "murder" at the top of his voice until the policeman yanked him out of reach of the woman's clenched fist. The latter as she stopped to pick up her cuffs remarked coolly

"It's a good thing for that fellow that you got here when you did or I'd have killed him"

The man who was a drummer for a Grand Rapids house begged the bystanders to protect him and two of them went with him to the Broadway station. He had had a quarrel with the woman in a neighboring beer saloon and she took this mode of redress. Nobody knows who she is but a man in the crowd was heard to express the opinion that the fighter was John L Sullivan in skirts

THE SILVER CREEK DISASTER

Nineteen Names on the List of those Killed—The Blame

BUFFALO, Sept 16.—The list of killed in the Silver Creek collision which was [illegible] by the finding of three additional bodies [illegible] Responsibility for the disaster [illegible] Engineer Brewer has not yet been [illegible] a letter from him addressed to the [illegible] appears in to-day's Express. The letter bore [illegible] date and the postmark on the envelope was [illegible] by the clerk of the [illegible] He says

"It is reported that I ran away for fear that I [illegible] would be put on me for the terrible accident at Silver Creek. I have not run away nor do I intend to, but in jumping from my engine I hurt my back and hip and was unable to assist and [illegible] the wreck. But in regard to my stopping at Silver Creek I did stop and took on a passenger. I had to meet a local at Silver Creek. There is no [illegible] track there, and never having orders before [illegible] train there I [illegible] the conductor [illegible] gave me the signal to go ahead [illegible] orders that I had and when he saw me starting the train he should have used the bell cord or automatic brake in the coaches to stop me

LEWIS BREWER, Engineer

If the above statement is true it relieves those in charge of the freight train and the train dispatcher from responsibility, and places it solely upon Conductor Harrington and Engineer Brewer. Parties at Silver creek assert that Harrington signaled Brewer to go ahead but that he did so on the supposition that the engineer had no orders to the contrary, there having been no orders given to either of them at Silver creek. A railroad official states positively that Brewer's orders were to pass the freight at Silver creek and that he disobeyed them. Coroner Blood of Dunkirk will begin an inquest to-morrow morning

HOMICIDE AT A FUNERAL

LOUISVILLE, Sept 16.—John Wyatt and Dempsey [illegible] are neighbors in Marshall county, Kentucky, who have not spoken for years. [illegible] spoke to Wyatt yesterday at a funeral and the latter knocked him down with a rock. [illegible] then drew a knife and killed Wyatt

A NEGRO LYNCHED

AUGUSTA, Ga, Sept 16.—Henry Barnes, colored, was lynched to-day at Millen for outraging a white lady at Rogers station, on the Central railroad. A party of masked men did the lynching. [illegible] was taken from the train near Millen and riddled with bullets

LARGE SAWMILL BURNED

EAU CLAIRE, Wis, Sept 16.—The Chippewa Lumber & Boom company's sawmill at Chippewa Falls, the largest in the country, was struck by lightning [illegible] this morning and totally destroyed. Loss $[illegible], partially insured.

The Testimony of a Physician

James Beecher M. D. of Sidney [illegible] says: "For several years I have been using [illegible] called DR. WM. HALL'S BALSAM FOR THE LUNGS [illegible] since I [illegible] used it [illegible] army practice [illegible] when I was surgeon of Hospital No [illegible] Louisville, Ky.

THE CIVIL SERVICE

A Plan to Regulate Promotions Prepared by the Commissioners

NEW YORK, Sept 16.—A Washington special says: A plan of promotion has been prepared by the civil service commissioners and will probably be submitted to the president for approval soon after his return from the Adirondacks. It contemplates the formation of boards of promotion in each department in Washington to be assisted by auxiliary number from each bureau to whom applications and candidates for promotion are to be presented. Applications are to be made subject to practical examination, and are to be rated and marked after examination and certified for promotion [illegible] just as candidates who are successful in preliminary examinations before the commissioners. The heads of bureaus or divisions are to have the privilege of marking the papers of candidates as to efficiency

Attention was directed in April last by a member of the board of departmental examiners to the fact that a few of the former examiners on the [illegible] list were marking all the papers and passing upon them, and that excuse was made by most of the examiners that they could not attend to official duties and find time to mark examination papers. A proposition will be made to have a board of one member in each department, to be constantly employed marking papers some of which a year [illegible] not yet marked up are in the office of the commissioners. It is in contemplation to have the proposed board mark all the papers not only for the departments but for the customs and postal service, so as to insure perfect impartiality by having them judged by absolute strangers and persons who will [illegible] become experts in discriminating between papers

EASTERN NEWS ITEMS

THE ARMY OF THE TENNESSEE,

ROCK ISLAND, Ill, Sept 16. At the meeting of the Army of the Tennessee this morning committee reports were made and adopted. The next meeting is to be held in Detroit the second Wednesday of September 1887

Officers were re-elected as follows: President Gen. W T Sherman; vice presidents Col J F Howe, St Louis, Capt W D Leach, Cedar Rapids; [illegible] Lonstrum, Galesburg, Maj Charles H Smith, Cleveland; Maj A V Rohn, Leadville [illegible] Surgeon S C Plummer, Rock Island; Capt J C Degres, Austin, Texas; Capt [illegible] Chadwick, Detroit; Lieut J W Hill, Rosedale, Kansas; Col Edward H Wolf, Russville, Ind; Capt Edward Spear, Minneapolis; Maj George B Hogan, Des Moines; recording secretary Col L M Dayton; corresponding secretary Gen A Hickenlooper; treasurer Gen M F Force

The matter of having headquarters for the society and a permanent place of holding meetings was taken up and after a spirited discussion the president was empowered to appoint a committee of five to report on the matter at the next meeting

The thanks of the society were extended to the people of Rock Island for the generous hospitality, to the committee on removal of the Rawlins monument and to Gen Chetlain for his learned and philosophical address

The society then formally adjourned, Gen Sherman closing the proceedings with a brief address, expressing a hope that all would have a happy year and come together again at the next annual meeting

In the afternoon the society took a special train to Rock Island arsenal where a salute of seventeen guns was fired in honor of Gov Oglesby, and where the workshops were gone through. In the evening there was a banquet.

TERRIFIC STORM IN MICHIGAN

DETROIT, Sept 16.—A terrific wind storm swept over southeastern Michigan to-day, of which but meager reports have been received. At Howell the storm came from the east and extended over a large extent of territory. A hurricane six miles wide, coming from the east, laid low many buildings in the eastern part of that city. John Smith's house was blown down and his son Fred, aged 20, was crushed to death, being flattened by falling timbers. In several instances barns were totally wrecked or blown away, while horses and cattle were left uninjured on the site of the buildings. Many trees were blown down. The storm was the severest ever suffered at Howell

Flat Rock reports the storm having divided going north and south. But little damage was done in town but a hurricane was reported south of that place

From Adrian comes a similar report. Houses were damaged, trees blown down and fences demolished. Heavy damage is rumored from the country round about Adrian but the wires are working badly and definite reports are not obtainable

AMERICAN FORESTRY CONGRESS

DENVER, Sept 16.—The American Forestry congress adjourned to-night, after electing the following officers for the ensuing year: President, G. W. Minier of Illinois; vice presidents H G Goffy, of Quebec, Martin Allen of Kansas, H G Parsons, of Colorado, E. H. Ward, of Cincinnati; Abbott Kinney of California, recording secretary, [illegible] Colorado, corresponding secretary, B. C. Ferrow, Washington D C; treasurer, [illegible] Ohio

Resolutions were adopted asking congress to establish an agricultural and forestry experimental station on the unoccupied portion of land in the District of Columbia known as the Arlington estate, said station to be under control of the department of agriculture; for the passage of a bill for protection and preservation of timber land now remaining in possession of the government; for establishing an office of commissioner of forestry to provide means to prevent further destruction of forests by fire and prosecuting those setting fire to timber. A resolution protesting against the repeal of the timber culture law was laid upon the table

THE SITUATION IN IRELAND

NEW YORK, Sept 16.—Judge Edward Brown, secretary of the Irish parliamentary fund association has just returned from a short stay in Ireland. He says: "The outlook is miserable. Extraordinary efforts are being made by tory influence to represent the country as being in a lawless state. Evictions are going on in the most remorseless manner, and Gladstone's statement is true that an eviction is equal to sentence of death. County Kerry is regarded as being the most forward in its resistance to the exactions of the landlords, but the truth is, all these accounts of so-called outrages are exaggerated and in many cases pure inventions. There is scarcely a town in Ireland that the English press association and English newspapers have not correspondents of their own kidney, who lie about the condition of affairs

WISCONSIN LABOR CONVENTION

MILWAUKEE, Sept 16.—The state labor convention at Neenah had a very stormy time. Dr Powell's delegates charged Robert Schilling, state organizer of the Knights of Labor, and the Milwaukee federation with having sold out to the democrats. This called out vigorous denials and a great [illegible]. The following ticket was nominated: For governor, John Cochrane of Dodge; lieutenant governor, George A. Lloyd of Newville; secretary of state, [illegible] Jasperson of Neenah; state treasurer, Fred Heenig of Chippewa; attorney general, [illegible] of Sheboygan; railroad commissioner, Henry [illegible] of Marinette; insurance commissioner, Father Stevens of Grant; superintendent of public instruction, J. K. McGregor of [illegible]

HENRY GEORGE FOR MAYOR

NEW YORK, Sept 16.—The various labor [illegible] in convention on the 23d and there is little doubt that they will put Henry George in the field as their candidate for mayor. At the [illegible] there is some gossip about Tammany Hall [illegible] this nomination [illegible] it is apparent that George is not [illegible] have the [illegible] himself. A strong [illegible] the secretary of the [illegible] who is working vigorously [illegible] The Ambitious [illegible] candidate [illegible] would stand a better chance of election [illegible] was formerly a member of Tammany, and his [illegible] he would be sure of the [illegible] that body within [illegible]

OPPOSED TO SALOONS.

First National Convention of Temperance Republicans.

THEY STAND BY THE OLD PARTY.

An Address by Ex Senator Windom—A Platform Adopted and a National Committee Appointed The Resolutions.

CHICAGO, Sept 16.—The first national convention of anti-saloon republicans began its session in this city this forenoon. When the convention was called to order there were 300 delegates present. The convention was called to order by Albert Griffin of Kansas who asked Rev Arthur Little of Chicago to open the proceedings with prayer.

Griffin said he was requested to suggest the name of United States Senator Henry W Blair of New Hampshire for temporary chairman. B C Shafer [illegible] for temporary secretary [illegible] of Kansas for assistant secretary and [illegible] of Des Moines reading clerk. These gentlemen so selected were elected unanimously

Addressing the convention Senator Blair said: *Gentlemen of the Convention*—I feel highly honored in being asked to preside over this great and historic convention which I certainly believe will live in the annals of time. We are for the destruction of the rum traffic throughout this country and throughout the world. I think I speak the sentiment of the convention when I say that as between free rum and low license we are in favor of low license (cheers), that as between low license and high we are in favor of high license (cheers), that as between high license and prohibition we are in favor of prohibition (more cheering)."

Blair went on to say that they also met as republicans. They were in that party and could not be driven out and he was one of those who believed it was only through the republican party that the suppression of the liquor traffic could be secured

COMMITTEE REPORTS

The call of states then proceeded to form committees on permanent organization—credentials, order of business and resolutions

The committee on credentials reported that 187 accredited delegates were present as follows: Illinois 40, Iowa 20, Kansas 9, Indiana 1, Maine [illegible] Vermont [illegible], New York [illegible], Rhode Island 1, Michigan [illegible], Wisconsin 11, Massachusetts [illegible], Nevada 1, Minnesota 15, Texas [illegible], Alabama 5, Pennsylvania 1, Ohio 1, New Jersey 7, New Hampshire 2

The committee on permanent organization reported the name of ex-Senator Wm Windom of Minnesota for permanent chairman. He was unanimously elected. The temporary secretaries were elected permanent officers. Vice presidents were named for each state

WINDOM'S ADDRESS

Windom was loudly cheered as he was escorted to the chair by ex Senator McDill of Iowa and Gen Conway of New York. When the new chairman appeared before the convention he said: "*Gentlemen*: I highly appreciate the great honor you have conferred upon me. There are possibly other gentlemen present who could state better than I can the serious purposes of this convention. We meet under a call of true and loyal republicans desiring through that party to accomplish what we believe to be of great good to the American people. For myself I never had the slightest thought of attempting to organize a new political party. I think that such a thought does not enter the minds of any other delegate here present. The party that freed the slave, that dignified human labor, that enacted the homestead law, that suppressed the great rebellion, that defended its honor in peace and advanced it to the front ranks of the nations of the earth is good enough for me."

The speaker said the record of the party for twenty years showed its willingness to grapple this new issue and carry it to victory. The issue was as grave a one as the republicans had to meet in the past. It resolved itself into the question whether the saloon was to dominate the politics of the nation. "We don't want to dictate to the republican party," said the speaker. "We are here simply for consultation and we meet to encourage it to take hold of this question which it surely will have to do and the sooner the better."

The speaker said he would look at the question solely from a political standpoint and not from a moral standpoint. The saloon was in politics with its assessments and money. It to-day controlled the politics of every large city and it elects their mayors. In Minnesota the democratic party had nominated for governor the very incarnation of saloon interests

He then spoke for thirty minutes on the general issue. He touched on the prohibition issue and said it was his view that they could carry out their purposes in a better way in following the leading of the republican party. That party said that slavery should extend no further and on that platform slavery was absolutely abolished. If the republican party would declare for high license and local option and recognize the right of the people to vote on the question directly when they wished to do so all lovers of temperance should follow that lead

At the conclusion of Windom's address the convention adjourned to 2 o'clock

THE PLATFORM

When the convention reassembled in the afternoon the committee on resolutions were not prepared to report and did not appear before the convention until 5 o'clock. In the meantime short speeches were made by a number of delegates on general temperance issues in several states of the Union. The report of the committee was as follows:

The anti saloon republicans by their representatives in national conference assembled, declare as follows

First—That the liquor traffic as it exists to-day in the United States is the enemy of society, a fruitful source of corruption in politics the ally of anarchy, a school of crime and with its avowed purpose of seeking to corruptly control elections and legislation is a menace to the public welfare and deserves the condemnation of all good men

Second. That we declare war against saloons and hold it is the supreme duty of the government to adopt such measures that shall restrict and control its influence and at the earliest possible moment extinguish it altogether

Third—We believe the national government should absolutely prohibit the manufacture and sale of intoxicating liquor in the District of Columbia and in all territories of the United States

Fourth—We believe the best practical method of dealing with the liquor traffic in the several states is to let the people decide whether it shall be prohibited by submission of constitutional amendments and until such amendments are adopted by the passage of local option laws

Fifth. That inasmuch as the saloon business creates especial burden of taxation upon the people to support courts of justice and almshouses therefore a large annual tax should be levied upon them so long as they continue to exist and they should be made responsible for all [illegible] and private injuries [illegible] the trade

Sixth. That the [illegible] [illegible]

Seventh. That we approve the [illegible] and those states that have done so [illegible] teaching the physical effects of intoxicants in schools and we earnestly recommend to every state legislature [illegible] teaching of such [illegible] to our children

Eighth—We [illegible] that the republican party to which we belong and whose welfare we cherish [illegible] stand as the friend [illegible] the saloon. In favor of this policy and these measures we pledge our selves to do our utmost to cause the party to take [illegible] and we call upon all temperance men and friends of humanity, of whatever party or [illegible] to join with us in securing the [illegible] [illegible]

ADOPTED

The resolutions were adopted [illegible] with [illegible] voting votes

During the interval between the reading of the report [illegible] [illegible] of Iowa spoke [illegible] prohibition as the ultimate result of the present [illegible]

The following national committee was appointed [illegible] Senator William [illegible] New Hampshire [illegible] Henry W [illegible] Vermont [illegible] [illegible] Wheeler [illegible] [illegible]

[illegible] then adjourned.

Sweet is revenge—especially to women, said the gifted but naughty Lord Byron. Surely he was in bad humor when he wrote such words. But there are complaints that only women suffer that are carrying numbers of them down to early graves. There is hope for those who suffer, no matter how sorely or severely, in Dr R V Pierce's Favorite Prescription. Safe in its action, it is a blessing especially to women and to men too for when women suffer the household is askew.

FIGHT TO A FINISH.

Twenty Two Rounds, Lasting One Hour and Forty Minutes.

ROCKAWAY BEACH, L I, Sept 16.—Jimmy Carroll of New York and Dick Collyer of Philadelphia, fought with small gloves to a finish Queensberry rules at a sporting resort here this afternoon in the presence of about sixty persons who paid $10 each to see the mill. Twenty two rounds were fought in one hour and forty-one minutes the fight being awarded to Carroll, who managed to get the last blow

At the finish they looked like a couple of fighting cocks after a hard battle floundering around the ring neither having strength enough to make a hit. The fight took place in a ring formed by three sides of the room with a rope stretched for the fourth side giving the men about twenty-eight feet of leeway to fight in. The first few rounds were decidedly interesting both men using their hands scientifically doing a little damage to each other, though Carroll's strength and length of reach over [illegible] Collyer's science. The affair became monotonous further on when the men were badly winded. In many rounds they did little but spar for time

It was evident in the fifteenth round that Collyer was beaten. Carroll hit out [illegible] several left handers on the former's right jaw and eye while Collyer [illegible] in a few rather short [illegible]

THE WASTE BY FIRE.

Under the title Mr. [illegible] Thomson has written a very striking article in the last number of the [illegible]. His text is the very striking fact that wealth amounting to $[illegible] is annually consigned to the ash heap,—so destructive of property are the fires that occur through negligence, accident or incendiarism.

Mr. Thomson points out the fact that most fires come from three causes, viz: Bad construction, incendiarism and carelessness. The chief cause is the former. Strange as it may seem, most of our fires come from defective flues. Our buildings are built by contract; if they stand, well; and if they fall down from weakness very often nothing is said about it. So that a building good enough to live in or draw rent is sufficient. Many of our blocks of buildings are mere shells and are yet filled with costly goods. To show the difference between our bad construction and that of the English it is sufficient to show that London with its 5,000,000 people pays its fire department, etc., $[illegible],000, while the same service costs New York $1,500,000. Then, too, there are hundreds of houses in the latter city, to say nothing of tenement houses, where a fireman dare not enter in case of fire.

The fact that we can get big insurance leads to more bad construction and carelessness, and this to crime in the form of incendiarism. According to the statistics the cause of 33 per cent. of fires is from the torch of the incendiary, and too often this is caused by over-insurance.

The individual who carries insurance simply recoups, if his property is destroyed, at the expense of the property and business of the country; and the insurance companies are but the mediums of collection and disbursement of these sums. So, as Mr. Thomson remarks, every dollar that is lost by fire is a tax upon the people, notwithstanding the fact that the individual loser may be indemnified by the insurance company; for insurance companies must fix their rates high enough to cover all losses, as well as the expenses of doing their business.

Ex-Gov. Hoadly, of Ohio, who passed through Portland not long since on his return from Alaska, as soon as he reached home reported to a Cincinnati reporter. He said: "There is nothing in Alaska except scenery, fish, and minerals. It is said that the Aleutian Islands are suitable for grazing purposes. How this is I know not, for I did not go near them. But I am very sure that in all Alaska which is accessible to the traveler there are not 5000 acres of tillable land. And I think that the climate is so far north that, except potatoes, cabbage, peas, and berries, little, if any, agricultural results can be reached." Rev. Dr. Haven, who was one of Gov. Hoadly's party, reported at some length on the glaciers of Alaska. Of the great Miller glacier, discovered by Vancouver in 1797, he said: "It is larger than all the glaciers of Europe together. It is some 860 feet thick, from ten to twenty-five miles wide and extends back for eighty-five miles, where it meets the Mount St. Elias glacier, which is is still larger." That Alaska will ever become an agricultural country is not believed by Dr. Haven. The climate is not nearly so mild as that of Norway. As a country full of magnificent and picturesque scenery it is not equaled by any other in the world, and it is easily and comfortably accessible.

A contributor tells the New York Graphic that the Hungarian laborers "are almost incredibly callous and brutal toward the dead. On one occasion he knew Hungarian parents to bury their two-year-old child under the boards of their hut to avoid the expense of buying a coffin or a cheap lot in the cemetery. At another time he knew of a stalwart Hungarian laborer who died of fever. The compatriots of the deceased invested in the rudest sort of a pine coffin, but when they came to place the corpse in it they found that the receptacle was too short. Too frugal to purchase a larger coffin, they deliberately sawed off the dead man's legs at the knees and then cheerfully buried him. Still another instance: A Hungarian was killed at his work amid his own cousins and other relatives. They at once prepared to bury him in the dump where they were piling up the excavated earth. The contractor interposed, provided a coffin and gave them the few dollars necessary to secure a grave in the neighboring cemetery. The relatives conducted the funeral and then demanded half a day's pay for the time devoted to these rites!" And yet these fellows are Christians. If a Chinaman should do this the air would be vocal with denunciation of him as a barbarian and a heathen.

The Wisconsin republican platform on the subject of temperance seems to be expressive of the sentiments of most practical temperance men, viz: that—"Recognizing the evils of intemperance, the republican party desires to adopt the most effective means for its suppression. We believe that in present condition of public sentiment the existing laws of this state, which permit communities, according to the sentiment prevailing in them, to prohibit the traffic in intoxicating liquors or to control it by police regulations and to limit it by high license, offer the best and most practical means of dealing with the evils resulting from the liquor traffic."

"At some noted gathering Dr. Oliver Wendell Holmes read an original poem which had never been given to public print," relates the Boston Courier. "An expert shorthand man was present at the meeting in the employ of a Boston morning daily. Everything was taken down, including the poem, and appeared in the next morning's issue. The skillful stenographer, a day or two after received a somewhat curt letter from Dr. Holmes, in which the autocrat remarked that while he commended the reporter's zeal, he did not thank him for publishing the poem, as he had been offered $[illegible] for it by the Atlantic Monthly.

The Northern Pacific election, held yesterday, had no significance, beyond the appearance of Elijah Smith thereat as a voter of a heavy amount of stock, chiefly to doubt the Transcontinental's holdings of Northern Pacific. But this had no effect upon the result. This incident emphasizes the fact that there is going to be a war between the Northern and O. R. & N. at no distant day; and the low rates the country will then get will make it chuckle with satisfaction.

Ex-Gov. St. John berates both parties for their failure to enforce prohibition where enacted and frankly admits that instead of diminishing the consumption of intoxicants it has actually increased it. St. John does not see that logically this admission is fatal to his cause. If one great party openly derides prohibition and the other makes a promise to the ear only to break it to the hope, there is no public opinion behind it.

Young man, in your search for a wife look up a woman who amounts to something. Mr. C. H. Hove did this, and now he is superintendent of schools for Multnomah county.

THE CANADIAN PACIFIC.

PORTLAND, Or., Sept. 17, 1886.

C. P. Dixon, Esq., Passenger Agent Canadian Pacific Railway—Dear Sir: In reply to your letter of even date, we would say the article published in to-day's issue of THE OREGONIAN intimating that obstacles might be apprehended from snow blockades this winter on the Canadian Pacific railway has a tendency to mislead the traveling public. We therefore state the following facts: We left Montreal September 3 and arrived at Port Moody on the 9th, passing over the entire main line of the Canadian Pacific. There was an entire absence of snow. Substantial snow sheds have been erected at every bad point through the mountains, while at every point where a landslide might occur massive bulwarks are constructed. We never traveled on a railway where there was such a combination of speed, courteous attention on the part of the employes, splendid passenger equipments and smoothness of roadbed. We shall always remember our journey over the Canadian Pacific railway with much pleasure. Very respectfully,

PETER McINTYRE,
Bishop of Charlottstown, P. E. Island.

THE AGRICULTURAL CONVENTION.

Adoption of a Large Number of Resolutions—The Convention Adjourns.

PHILADELPHIA, Sept. 16.—At to-day's session of the Agricultural association the committee on resolutions presented a series of resolutions again appealing to congress for such legislation as will at least protect them from the necessity of competing with food products which are fraudulently manufactured and sold, to the detriment of the morals and health of the people; expressing gratification at the passage of the oleomargarine law; and tendering thanks to senators and representatives, the president of the United States and the press of the country for their support of the measure, and pledging themselves to use all honorable means to secure re-election to congress of the senators and representatives referred to, recognizing them to be friends of the people and opposed to the encroachments of capitalized frauds; recognizing the necessity of additional legislation "to perfect the bill so that its provisions may apply to keepers of hotels and boarding houses, and to those who employ and board large numbers of men," urging congress to consider the measure, and finally recommending that states which have laws relating to the sale of oleomargarine co-operate with the association. The resolutions were adopted.

Gen. Beaver and Lieut.-Gov. Black, republican and democratic candidates for governor of Pennsylvania, made brief addresses, after the adoption of the resolutions, calling upon the farmers of the United States to join agricultural and dairy societies, or, if there were none in their neighborhood, to organize them. The convention took a recess.

When the convention reassembled the committee on resolutions submitted a resolution, which was adopted, stating that the association did not confine itself to the enactment and enforcement of laws against fraudulent dairy products, but desired revision of the laws to prevent public lands from falling into the hands of corporations; against adulterations, for revision of the tariff and regulation of foreign immigration.

A communication was received from Dr. J. W. Gadsden, veterinary surgeon, urging the importance of obtaining legislation from congress that will effectually stamp out pleuro-pneumonia, which threatens the animal industries of the country. He claimed that it was an incurable disease, and that apparently recovered animals are most dangerous, containing as they do the germs of an infection. The only safety is in the prompt destruction of every animal that is or has been a sufferer.

A resolution to petition congress to pass such laws as would effectually carry out Dr. Gadsden's suggestions was unanimously adopted.

A resolution requesting congress to amend the oleomargarine laws by increasing the tax was referred to the committee on legislation.

On motion of Mr. Seymour, the commissioner of internal revenue was requested to publish monthly the names and addresses of licensed manufacturers and dealers in oleomargarine.

A motion to urge congress to adopt a uniform standard of weights and measures was carried.

Resolutions were adopted thanking President Cleveland for the interest he has always taken in agriculture, both as governor and president, after which the convention adjourned sine die.

THE BULGARIAN TROUBLE.

THE DISPUTE OVER BULGARIA.

NEW YORK, Sept. 16.—Hon. Thomas Power O'Connor cables from London to the Star: Seething in the minds of adventurous English politicians are projects already mentioned in those dispatches for changing the whole future foreign policy of the country. The movement for the abandonment of the Turkish alliance has been started afresh. From the tone of the London and provincial press it would appear that instead of dying a natural death, as supposed, agitation is making rapid headway. The Russian element in the court is bringing powerful influence ito play in favor of a Russian alliance. The proposed Anglo-Turco-Austrian alliance is coldly received. Divisions in the royal family on the Bulgarian question are extending to the upper circles generally. The party of the queen and Princess Beatrice are numerically strongest. Overthrow of Russian influence in the Balkan states and the re-establishment of the Alexander regime is the object. They are laboring against princesses allied to the Russian reigning family, who have thrown their influence wholly on the side of a Russian alliance and partition of the Turkish empire.

RUSSIAN INTRIGUE AT WORK.

CONSTANTINOPLE, Sept. 16.—Russian intrigue is making it hot for the British all round, cleverly making a cat's-paw of French vanity to stir up unpleasantness between the porte and the British cabinet over Egypt. Active correspondence is now going on with respect to its continued occupation, the Turks complaining of the little attention paid to Mouktar's proposal, and a want of faith on the part of England. Turkey is pressing, in fact, to have a date fixed for the withdrawal of English troops. Russia's hand does not appear. The French embassy alone is moving, but it is well understood here that a desire to please Russia is the motive of this policy of the French foreign office. Thirty thousand pounds have just been remitted to Mouktar Pasha for the purpose of working up local Egyptian discontent against English occupancy.

A TELEGRAM TO THE CZAR.

SOFIA, Sept. 16.—In the sobranje to-day it was resolved, after much opposition, to send a telegram to the czar, saying the Bulgarians would pray to the Almighty to grant him a long and happy life, and laying at the czar's feet the devotion and fidelity of the Bulgarian people. Hope is also expressed that friendly relations between Bulgaria and Russia will be resumed, and that the czar will defend the Bulgarians in their aspirations for union and independence. After a heated discussion the expression "defend Bulgarians" was substituted for "protect Bulgarians," as originally drafted.

MEXICO.

THE PRESIDENT'S MESSAGE.

CITY OF MEXICO, Sept. 16.—In his annual message to congress, read on the assembling of that body to-day, President Diaz said Mexico's relations with foreign governments had continued generally on terms of friendship and good understanding. There had, however, recently occurred an incident which threatened to destroy the harmony and cordiality existing between this republic and its neighbor. It was of small importance in itself, but it excited, in an unexpected manner, and owing to a conjunction of circumstances, passions on either side of the Rio Grande. "I refer," continues the message, "to the matter of an American journalist, which has already come to your knowledge by publication made in the Diario Oficial. We must congratulate ourselves that in such an emergency the dignity of our government and the good name of the country could be saved without a conflict, thanks to the prudent and strictly legal conduct of the courts and authorities of the state of Chihuahua, as well as to the good sense of our own people, and the government of the United States, which, when better informed, did not insist on that which gave rise to the transient difficulty." Texas papers have alluded to other cases of alleged outrages on citizens of that country by officials of our own. In their eagerness to accumulate charges against Mexico, they have referred mistakenly to the case of an individual named Francisco Arresures, author of various crimes committed in our territory. It will suffice to observe that Arresures was of Mexican nationality, and was voluntarily delivered by the Texas authorities to a force of the state of Coahuila without any previous demand for his extradition, so that in this case it will be seen that, as regards this supposed citizen of the United States, there is no occasion for controversy between the two governments.

ST. HELEN'S HALL
ART DEPARTMENT

The ART DEPARTMENT in St. Helen's Hall opens this year under very favorable auspices. Miss Mary T. Norton, now at the head of this Department, has had superior advantages in instruction at home and in Europe, and comes with recommendations of the highest character.

The Rev. Dr. Porter, President of the Glendale Female College in Ohio, says of Miss Norton: "She is highly qualified and a lady of superior taste, skill and culture in both crayon work and in painting. She was with us three years, and we have some very fine works of hers now in our house. She spent some time studying Art in Europe before she came to us. She left to spend two or three years more in Europe, and has improved her advantages in the Art galleries there faithfully and very industriously. She is one of the most [illegible] Art teachers we have ever had, and I should be disappointed if you do not find Miss Norton equal, if not superior, to any Art teacher you have ever had, in skill, fidelity, culture and chastened taste in her department. I make this statement after an experience of thirty years in this Institution."

FROM THE PEND D'OREILLE MINES

METALINE, W. T., [illegible]

TO THE EDITOR OF THE OREGONIAN

I now have the pleasure of confirming [illegible] After reporting the discovery by Mr [illegible] [illegible] which showed [illegible] ounces [illegible] assayed for silver alone. This claim is [illegible] the mountain directly in the rear of [illegible] and beyond the hills which extend to Metaline. Although this mine is so close to the [illegible] within two miles it is the first one located [illegible] the mountain and it is singular that prospectors have heretofore confined their attention [illegible] up and down the river and more remote [illegible]. This ore is a gray copper and differs from all others [illegible] in this vicinity up to the time [illegible] when Mr. [illegible] reported that he had found so [illegible] which he deemed rich in silver.

The main characteristics of the mines [illegible] Flume creek and in the Caledonia district [illegible] similar to those of all mines in which galena [illegible] chief constituent.

Since Mr. Linton's success the [illegible] has been visited by a great many prospectors [illegible] surface has recently been [illegible] examination [illegible].

Mr. Jerome McLean has found a very rich [illegible] in the vicinity of Mr. Linton's mine an[illegible] much pleased with the prospect that he [illegible] not to record several finds which he had [illegible] near Flume creek. There has long existed a belief that only low grade ores not worthy of close inspection were to be found in this section. I became thoroughly impressed with the [illegible] that the very loose and indifferent manner [illegible] which the district was prospected was the [illegible] wrong impression. I so [illegible] and I am glad to know that my [illegible] were correct.

Now as regards prospecting around Metaline [illegible] that work may be continued up to January [illegible] snow will interfere with its prosecution [illegible] when the snow does fall it rarely lies after [illegible] while it is never deeper than two [illegible] inches. This is in marked contrast to the [illegible] district.

A new feature, and one most noticeable, is the [illegible] which has developed [illegible] the [illegible]. A week since I could have bought a hewed [illegible] with the lot upon which it stood for [illegible] hundred dollars but to-day it is held [illegible].

Men who have been here for five years say they were always sure that this [illegible] would be a [illegible] and some of them expect to realize large [illegible] in the near future from their holdings.

Representatives of some large operators have visited Metaline within the past week, and they have expressed their surprise at finding that the [illegible] which have been embodied in my letters [illegible] were simple facts stated without exaggeration.

The rush of prospectors has already begun and probably will continue for the next two months. There are more miners now in camp and on [illegible] way hither than have been here for years.

I intend visiting the [illegible] mountains to-morrow for the purpose of examining thoroughly into the work [illegible] done and upon my return in about ten days I expect to be able to give you a statement of particulars.

Prospectors who have never visited this section will find it convenient to come via Rathdrum [illegible] there [illegible] they take boat to [illegible] making the run in two days.

[illegible] advisement. R. W. Williams a[illegible] and [illegible] for the [illegible].

TRACTS IN [illegible].—There [illegible] radical change in the laws [illegible] claims or in the administration [illegible] court [illegible] who has [illegible] improvements upon [illegible] [illegible] government land [illegible] on his claim and brings them here [illegible] government agent [illegible] enough improvement made [illegible] [illegible]. It is [illegible] irresponsible [illegible] there was an end to [illegible].

NEW ADDITION TO PORTLAND.—Yesterday [illegible] Smith and his wife [illegible] filed with the county clerk a map [illegible] addition to the city of Portland. It is [illegible] ground situated on Carter's [illegible] Kenneth Macleay's tract [illegible] and contains about 100 acres [illegible] are irregular in shape and the map looks [illegible] of a park. In reality the place will be a park just as other hill tops now are and more so. It is a common remark by strangers of wide travel that the hills back of Portland far surpass in natural beauty those around Cincinnati which [illegible] are the finest on the American continent. Art will now do her share with [illegible] which will soon become a fitting frame for the beautiful city below them. The movement towards acquiring suburban residence property has never been so marked as this season. The first cost is small, very small, and to change the surface of the hills from forest to lawn is more the labor of love than the expenditure of money. Portland is now the most beautiful city on the Pacific coast and it will not be long till it will have a national reputation.

RICH STRIKE IN STARVE OUT.—Mr. [illegible] brought to THE OREGONIAN office to-day some of the richest gold bearing quartz that ever delighted the eye of an expert. It is from the Green Mountain ledge situated in Starve Out creek in Douglas county. It was bonded last winter by Messrs. Clarno, Wilson, Whiting and Jones who commenced operations by running a tunnel in the lode. The whole vein is 10 feet in width and prospects well throughout but the richest streak, [illegible] inches wide, is next the hanging wall. The formation is slate which is very favorable for permanency and richness. Years ago Starve Out creek was worked for placer gold but the diggings gave out just where this ledge crossed it, from which the hypothesis is naturally formed that the gold all came from thence. There are now thousands of dollars in sight and the rock is fully one-half gold. The owners will exhibit samples of the ore at the Mechanics' fair.

ACCIDENTALLY KILLED.—A special to the [illegible] from [illegible] says: A few days ago a young man named Mike [illegible] living [illegible] of this city, near the Long Tom river, met his death in a very tragic manner. He was driving in a wagon with a double barreled shotgun in his hand. The gun slipped and was accidentally discharged, the load taking effect in his left shoulder. His arm near the shoulder was broken and frightfully lacerated, from the effects of which he shortly afterward bled to death. He was alone and after growing weak from loss of blood is supposed to have fallen out of the wagon. The team went to the first house and stopped. When [illegible] seen [illegible] team without a driver search was instituted and the young man was found where the accident occurred in a dying condition and he died in a few moments afterward. He was well and favorably known and the entire community regrets his tragic death.

MORE WHARVES UP TOWN.—Some people used to say that it made but little difference whether there was any draw in a bridge across the Willamette above Washington street or not as ships never went up there anyhow. But they never say so now. There is now one vessel loading spars and lumber at the upper end of the city and Smith Bros. and Coy Pennoyer will forthwith commence the construction of a wharf 200 feet long and 80 feet wide reaching out to the wharf line at the rear of their sawmills. This will give them about sixteen feet of water in front of the wharf at low water, which will be sufficient for all practical purposes. They will engage in the business of furnishing cargoes of lumber to ships instead of as heretofore confining themselves to supplying the home market. So here will probably be more ships going above the bridge every year in future.

UNCOMMERCIAL TRAVELERS.—A fellow called on Ticket Agent Maxwell at Ash street wharf yesterday and wished to buy a quarter of a berth on a sleeper. He wanted to go East and said he would like that much sleeping accommodation. He was informed that the berths on sleepers were not divided into quarters, like a section of land. He is probably connected in some way with the fellow who wanted to get a stove and pipe checked as baggage and who, by the way, has been gravitating between Wallula Junction and Umatilla for the past week. He has fallen in love with the lively country between those two points and he misses his connections and gets on the wrong train every time and comes up smiling, alternately at each end of his beat on alternate days. He will soon be the flying Dutchman of the sagebrush plains.

SHIRTS, CHINESE AND WASH BILLS.—A legal point which may interest several impecunious not to say dishonest young men in Portland, was decided yesterday by Justice Tuttle. James Bru[illegible] caused the arrest of Ah Jim, a Chinese laundryman, for larceny by bailee. Jim washed James's shirts and James [illegible] pay the laundry charges. Jim retained the linen. The court held that Jim had a lien on the shirts for the labor performed and could hold possession until the bill was paid. [illegible] the property may be retained for [illegible] but [illegible] property [illegible] debt. If a Chinaman loses your washing [illegible] [illegible] the bill.

MAYHEM.—Yesterday morning [illegible] arrested [illegible] on a charge of mayhem. [illegible] was recently released from the county jail where he was confined in connection with the Kelly [illegible] case. Wednesday [illegible] quarrel [illegible] Irishman [illegible] behind Hickey [illegible] threw him down [illegible] a terrible wound. [illegible]

[illegible] AND OTHERS.—[illegible] good news [illegible] friend the reporters [illegible] in front of the [illegible] evening [illegible] track [illegible] dragged him from the [illegible] fought manfully and used his best endeavors to carry out his laudable intention but was prevented. He was disgusted and disheartened and he has the heartfelt sympathy of all the reporters in this city. There is too much of a spirit abroad leading people to meddle with other people's affairs.

CHARGED WITH CRUELTY.—Frank Hartman who lives on the canyon road was arraigned in Justice Tuttle's court yesterday on a charge of cruelty to animals and was bound over in the sum of $100 to await preliminary examination set for the 2d inst. It is charged that some time since he was driving a cow to his ranch when the animal butted him down an embankment. He intended to slaughter the cow and after he had her fastened down and before he killed her cut out her eyes, cut off her ears and otherwise mutilated her face. Hartman claims that the charge is trumped up by enemies and that he will have no trouble in establishing his innocence.

NEW I. O. G. T. LODGE.—Emerald Spray Lodge, I. O. G. T., was organized September 1 at Central Point, Jackson county, by the grand lecturer, Prof. Wm. Crowhurst. The new lodge starts out with forty charter members and is officered as follows: [illegible] Houck, [illegible] Mrs. Mattie Hoagland; [illegible] Miss Cassie Hoagland; [illegible] Miss Ida Leever; secretary, F. T. Downing; [illegible] Miss Nancy Olson; chaplain, [illegible] Anson Ford; treasurer, Miss Jennie Smith; chaplain, J. Houck; marshal, [illegible] Wilson; D. M., Mrs. M. J. Hoagland; guard, Miss Nettie Downing; sentinel, Edmund Leever.

AN ARTISTIC TREAT.—One of the features of the forthcoming holiday issue of the West Shore is an engraving of Mt. Hood 18x24 inches in size printed in eight colors on heavy plate paper. Work has so far progressed upon it as to show what a magnificent picture it will be when completed. It is a work of art which every Oregonian will be proud to hang upon his wall the more so because it proves that Portland possesses an art establishment capable of producing work equal to the best in the United States. The holiday West Shore with this magnificent supplement will undoubtedly be in great demand.

VERDICT OF SUICIDE.—Yesterday an inquest was held over the body of Lung Suey, the Chinaman found dead in the joss house Wednesday evening from a knife wound and a verdict of suicide rendered. The remains will be buried to-day from DeLin's establishment by his brethren of the Chinese Order of Free Masons. There will be a more than usually extensive display of roast pig and chicken fixins on Second street, between Morrison and Alder.

KICKED BY A HORSE.—About [illegible] o'clock last evening a man apparently the worse of [illegible] attempted to ride down the bluff at the head of [illegible] [illegible] his horse [illegible] threw him and [illegible] the banks [illegible] injured [illegible] [illegible] was driving at the time [illegible] after trying to [illegible].

ELECTION OF OFFICERS.—The members of the Ladies' Seaside [illegible] have [illegible] officers during the coming year [illegible] Mrs. W. H. Saylor [illegible] Dudley, secretary, Mrs. M. A. Kenneth [illegible] Mrs. Edward Croft. A vote of thanks was tendered to the retiring officers, Mesdames Myer, Staver and Farrell, under whose [illegible] over $1500 was raised [illegible] official board [illegible].

[illegible].—There are two [illegible] on the Bray robbery [illegible] thirty around the county jail that the [illegible] stand ten to two [illegible] They did stand ten to two [illegible] came around [illegible] remarked the other day the gold men [illegible] who get [illegible] [illegible] justice.

INJUNCTION [illegible].—Yesterday J. B. Mart[illegible] began an injunction suit in the state [illegible] court against the Northern [illegible] company to restrain them from [illegible] his property [illegible] court granted [illegible] that building [illegible] which [illegible] property [illegible] Judge Stearns granted [illegible] the plaintiff giving bonds in the sum of $5,000.

GETTING [illegible] ROCK.—[illegible] employed at the [illegible] The contract for rock [illegible] Walla Walla has been filled [illegible] no less than 339 car loads having been shipped there. Rock [illegible] being carried for the O. R. & N. Co.'s bridges over the Umatilla, Deschutes, John Day and Walla Walla rivers. These bridges require a large amount of stone and it will be some time before enough to finish them can be got out.

SCALDED TO DEATH.—A fatal accident occurred at the residence of Henry Krohl [illegible] across the river from [illegible] last Saturday morning. His little 3 year old son Herman was playing around the door yard when by some unknown means he fell into a bucket of hot water that was sitting near him and scalded the skin off of a large portion of his body. The little sufferer lived until 10 o'clock Sunday night when death came to his relief.

AS BAD AS A WIFE BEATER.—In the police court yesterday J. C. Irvin, charged with cruelly beating a horse with a shovel, was fined $5. It was shown that the horse was a faithful animal and had pulled many a heavy load without making any objections. Judge Demont told the prisoner that the man who would beat a defenseless animal wantonly was on a par with a man who would beat a woman and fined him accordingly.

AUTUMN VACATION.—Tacoma advertises as a summer resort and a really good summer resort it is. Portland people fatigued with business, can go there for rest with assurance that they will find it. There is a splendid hotel at Tacoma too and when one wants a vacation and these beautiful and dreamy early autumn days are just the time for it—a more quiet and restful place than Tacoma cannot be found.

BASEBALL.—At the Oaks next Saturday, at [illegible] P. M., between the Pacific university nine of Forest Grove and the Stars. They have a fine battery at the university and are confident of winning. Admission 25 cents a person.

FREIGHTS—The Flimby arrived with prior charter and the Archer seeking. Sailings were Shakespeare and Valley with wheat. In spot the Devs was taken up for grain loading. This [illegible] while with stress for a week. The market rules [illegible] probably weaker although the quotation [illegible] 40s for iron [illegible] unchanged. Possibly [illegible] less but it [illegible] actions reported.

WHEAT—Arrivals for the week were 134 tons valley and [illegible] tons Walla Walla against [illegible] and [illegible] the same week last year and [illegible] and 4464 tons the same preceding week this year. The decrease in valley is due to a falling off in west side shipments. From the eastern section grain is arriving from almost every station and point but the bulk appears to be from the farther sections. The load [illegible] days not only because of a scarcity of cargo stuff but because the cargo market is dull.

Foreign markets have continued to rule weak and any price change noted has been for the worse. While British imports last week were larger they did not in the aggregate equal imports for the same period last year. The quantity afloat increased 140,000 qrs during the week and is now 50,000 qrs above the same date last year. British farmers' deliveries are very even. The American visible continues to increase with no prospect of an early change to a lowering of figures. Chicago and New York have receded and there is no great amount of life in those markets. Atlantic exports are on a fair scale. San Francisco has exhibited considerable excitement. The necessities of exporters have been played upon by holders until as high as $1 4¼ San Francisco basis was paid in the interior. On Wednesday there was a marked change probably brought about by lower bids from exporters and spot obtainable prices fell without leading on sellers. In options there was heavy dealing at a considerable decline, a drop of 2 cents being noted in forenoon trading. In our own market sellers have maintained the advantage for some time possessed and sales have frequently been at higher figures than were possible a week ago. Competition among buyers is probably more responsible for the better figures than is the strength of sellers, for the latter appeared to be letting go at a rate that would supply necessities of shippers. Transactions reported us includes valley at $1 [illegible] and Walla Walla $1 1[illegible]@1 20. But one sale of the latter at $1 20 is mentioned, $1 18¾ seeming to be the extreme. A large lot offered at $1 20 on wharf was refused. In the interior 5 ½c per bushel is generally named for choice which would be $1 1[illegible] or a little better here and from information at hand the market may be quoted $1 1[illegible]@1 18¾ interior competition establishing the extreme. Valley wheat presents an irregular front. At Salem where there is no competition 81c per bushel obtains. This is below $1 2 here. Other east side points report equal to $1 [illegible] paid. Farther up and on the west side competition prevails and has forced prices to a point equaling $1 2¾ here although $1 5 is quoted and given out by most buyers as an extreme. It is certain that parcels here have sold at the higher figure and we have reported more than one such sale. That these prices are not justified by foreign advices is certain and how long they will continue here depends upon San Francisco values and local needs. Yesterday and to-day a decidedly weaker feeling was noticeable and the decline at San Francisco is calculated to weaken our market. With most urgent needs satisfied it would appear that our shippers would be able to withdraw and force prices to at least a parity with San Francisco. Perhaps the next few days will bring about some such change here. As [illegible] resist any decline [illegible] of dead lock [illegible]. Last valley sales reported [illegible] $1 [illegible] the market closing less firm.

The following is a comparative statement of grain deliveries from English farmers, imports into the United Kingdom and quantities afloat for the week ended as below:

For ALL of those Painful Delicate Complaints and Complicated troubles and Weaknesses so common among our Wives, Mothers and Daughters.

IT IS A SOVEREIGN REMEDY.

PLEASANT TO THE TASTE, EFFICACIOUS AND immediate and lasting in its effect.

IT IS A VERY GREAT HELP IN PREGNANCY AND RELIEVES PAIN DURING LABOR AND AT REGULAR MENSTRUAL PERIODS.

OVER 1000 LADIES IN PHILADELPHIA alone testify as to its good qualities. It is a delicate matter to testify about but we have their names.

For all weaknesses of the generative organs of either sex it is second to no remedy that has ever been before the public, and for all diseases of the Kidneys it is the *Greatest Remedy in the World.*

PHYSICIANS PRESCRIBE IT FREELY.

Its purpose is solely for the legitimate healing of disease and the relief of pain, and it does all it claims to. It will cure entirely all Ovarian or Vaginal troubles, Inflammation and Ulceration, Falling and Displacements and consequent Spinal Weakness, and is particularly adapted to the Change of Life.

WEARY WOMEN PRAISE IT.

It removes Faintness, Flatulency, destroys all craving for stimulants, and relieves Weakness of the Stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain and backache, is permanently cured by its use.

DR. JOHN BULL'S SMITH'S TONIC SYRUP

FOR THE CURE OF FEVER and AGUE Or CHILLS and FEVER, AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PERMANENT cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of KENT'S VEGETABLE FAMILY PILLS will be sufficient. Use no other.
